### Training in Systemic Constellation Work

If this work interests you, then you will certainly enjoy learning about the philosophy that underpins the practice. The **Centre for Systemic Constellations Foundation Training** can be undertaken for personal or professional reasons – or both. Visit [www.thecsc.net](http://www.thecsc.net) for more information – you will find details under the 'core trainings' menu.

### Constellations in the Cowshed – *Making Space for Animals in the System*

In this new workshop, we will meet in the cowshed on an organic farm in Dorset. We will work together to give space and voice to the important animals in our lives – living, long gone or archetypal. We will open to the healing and wisdom that they always bring and we will honour them. Do get in touch if you would like more details. The fee includes an organic lunch and farm walk around the holding. Places are limited.
