Greetings in 2026

Welcome to 2026 at Kindred Constellations

Below you will find a list of the Open Workshop Programme for the year. A few additional events may be added in due course, but for now I am only offering Bristol-based workshops, as most of my time these days is spent teaching Constellation Work at the Centre for Systemic Constellations (www.thecsc.net).

In 2026 the school will be running three Foundation Trainings. These offer a profound introduction to the work and its philosophy and can be undertaken for either personal or professional development. The Foundation Trainings are held in London, Bristol and Manchester this year and you would be very welcome to join a group if this work touches you.

Sending all good wishes for a wonderful year of exploration,

Gaye

2026 Workshops

Systemic Constellation Work, or Family Constellations, is a methodology used to identify and resolve difficult life issues – in our family, work, business, health or creativity. The constellation approach takes the ‘widest possible view’ which can include past generations, trans-generational traumas, and epigenetic inheritance – as often it is here that the root of the problem belongs. Workshops are open to everyone and require no previous experience of understanding of the work.
